

Let's Get Visual

Foundational Sciences **Organ Systems** **Clinical Rotations** **Exam Review**

Osmosis makes teaching the modern medical student more effective and efficient by providing bite-sized, on-demand illustrated videos paired with linked assessment items. With an extensive content library and analytics dashboard, Osmosis supports your curriculum and helps track student progress with ease.

On-Demand Content at Your Students' Fingertips

- 1 Students learn visually and control what comes next
- 2 Linked exam-style assessment items
- 3 Clinical Sciences video learning objectives to keep students on track
- 4 Externally-linked evidence-based clinical guidelines
- 5 Speed controls for efficient consumption
- 6 Content accessible via closed captioning
- 7 Clinical decision-making trees
- + Study Schedule, Analytics Dashboard, and more!

How Osmosis Supports Medical Faculty

Reporting & Analytics Dashboard

- 1 See which students are actively learning
- 2 Spot knowledge gaps early
- 3 Track individual student performance

Curricular Alignment Preclinical & Clinical Prep

- 1 Help students comprehend, not just memorize
- 2 Detailed explanations for each possible answer
- 3 Streamline teaching and learning with Osmosis AI

Flipped Classroom Resources

- 1 Osmosis notes for out-of-class studying
- 2 Assign playlists as pre-work
- 3 Quickly build and assign Study Schedules
